Weird, the State Department says Ukraine's election was rigged...yet our elections, which have had the same substantiated allegations for at least the last 12 years are legit...

Message Full text of Trump Campaign v. Pennsylvania

Message You know, I've seen a lot of you talking about Parler lately. Despite it's look, Parler is not a true Free Speech platform. I'm also distrustful of how much information you have to give them to sign up for an account. It smacks of a Deep State ploy to track conservative voices. If you truly want free speech platforms, there are only two left running on the normal web. Those are: <https://thedonald.win/> and <https://gab.com/> (Feel free to hate on the racists there, but they deserve a place to speak their ideas)

Message Ohhhh.....a nimble navigator of a pede laid out 25k USD of his own money for the complete WI vote database for 2020. My free modeler won't accept a database this large, so I'm linking it just in case anyone has a statistical modeler that can use it. I wonder just how badly Benford's law has been violated in this dataset.

Message Primer on Ballot Fraud (not Voter Fraud, which is extremely rare, as it's 1 person claiming to be another in order to vote in person more than once)

Message Very detailed statistical analysis of the voting data from States using the Dominion voting machines. This post includes the OP's sources and methods as well, so that you can replicate his findings. His python script is even open so that you can check his script to make sure there's no funny math going on there so you know the results generated by the scripts aren't altered in any way.

Message Acclaimed Elections Director fired after asking for updated systems, multi-factor authentication for Elections workers, and power redundancy for counting machines and public facing websites. Something Smells in Oregon.

Time 2020-11-11 15:43:16 UTC

Message Interesting. IT Security Pro and Internet Free Speech Hero examines the manual for the Dominion Voting Tabulators. Finds there are literal settings that will allow people to inject digital votes into a machine, using only the admin USB drives. What was stolen on Sept 30 from a Philly warehouse? Those same USB drives.

Summary Jose Padilla commented on a post from January 8. `I was there on the 6th. I used to laugh when Antifa got attacked by the cops because I assumed they (Antifa) started it. After having my hand crushed and pepper sprayed on the 6th for the grievous crime of resting it on railing while I was calmly speaking with a DC Metro cop that I knew was a fellow Veteran from the Combat Action Badge and ARCOM tie tack he had on his gear, I'm pretty sure that Antifa probably wasn't lying about the cops starting it. Everything that happened on the 6th (with the exception of the people who got into the Capitol Building in a staged event,(the cops let them in)) was completely an organic response to being attacked by the cops. It went from being a Stop the Steal rally to a Restore the Republic battle when they had attacked enough of us.`

Summary Jose Padilla replied to a comment on a post from January 8. `@[1063471724:2048:Shannon Williamson] Point out where "My Leader" gave a command. You won't be able to. The only command "My Leader" gave was to disperse, and I ignored it because he isn't my leader. I supported his presidency vocally, but had never been to a rally, never donated to him, I don't even own any Trump gear. My leader is my heart and soul, and when I saw that our Government was going to let obvious fraud stand, I understood that the Republic that I hold sacred was in danger, and that I had a duty to defend the Constitution, with my very life in

need be. I made that oath LONG before Trump was President. I stood at the railings of the Capitol building and talked to the cops, until they crushed my right hand and sprayed me. After the pepper spray faded and I could see a little, I went back up to the railings, and talked some more until an officer shoved me with his baton for no reason. I then decided that that railing was mine, and I wasn't going to let the cop move it. I never once struck any cops, no matter how hard they beat on me, sprayed me, tased me, and used strikes with their batons that are classified as Lethal Force by ALL police departments in the country. I just held onto a railing and pushed, or refused to be pushed back. I did this 5 times until all the railings were gone. Then did the same thing at the stairs, then at the doors to the Capitol. `

A police officer batoned my right hand Knuckles and and crushed my ring finger for the crime of setting my hand on the rail while talking calmly to another officer who was wearing his CAB and ARCOM tie tack on his gear. I was just talking, reminding him of his duty to not follow unlawful orders. I was not yelling. Nor was I pushing the railing or trying to rip the railing away. Nobody had started that yet. After that had happened to enough of us, including being pepper sprayed for no reason we started pushing the rails. I was hit with at least 3 strikes across my temple and carotid that should have been lethal if God hadn't been with me. I was Batoned, sprayed, gassed and tased. I was beaten unconscious. `@[100009089060129:2048:Bradley Froemke] I was there yesterday in DC. What the news is saying is completely wrong. I used to laugh at the Antifa rioters when they would scream the cops started it. Now I know first hand the cops start it. My right hand nuckles and ring finger are shattered because the cops bashed it with a baton for the crime of putting on a railing while I was talking to another cop whom I knew was a soldier. Also want to say that the riot was never about Trump. We were attempting to restore the Republic by dissolving the legislature and convening a constitutional convention of the people to add amendments that would prevent any federal election from having ANY appearance of impropriety. Also, I hope you enjoy war, because we're in for at least four years of overseas adventuring again. Biden's never seen a war he didn't like.`

Status There's a lot of memes and posts flying around saying that the people who were fighting last night were all Antifa provocateurs etc. I just want to say that as a first hand observer of every point of last night, that it was not Antifa. They were Patriots who were trying to Restore the Republic after being attacked by the cops, who struck first. Even those who broke the windows next to the doorway to the Capitol were Patriots trying to find a way to turn the Flanks of the cops. All kinds of Misinfo going around and I thought I should clear that up.

Thomas Wictor @ThomasWic
US Marines.

6h

Absolutely no question.

Not mentioned ANYWHERE.

Active-duty.

This footage by itself proves that Trump will be inaugurated on January 20.

You don't call in the marines and hide it if you expect things to go smoothly.

ATTENTION ALL QANONS: "IT'S HAPPENING"
DEVELOPING....

"IT'S HAPPENING.

Military takedowns and arrests begin this weekend and will continue forward for the next 13 days/ nights/ Some international raids have already started. Italy has been found complicit in our election fraud.

Everyone will be getting emergency SOS alerts on their phones, TVs, radios & the Internet. It will override all other broadcasts and could last for several hours at a time. Do not be scare of what's coming as it is for the safety of our nation for this to unfold.

DO NOT travel to any large cities (especially Philadelphia) for the rest of the month. Military operations will be taking place in many of the major corrupt cities. People will start rioting once this intel breaks thinking Trump is a military dictator.

He only has 13 days to put this dog down.

The implementation after the raid on the Capitol and was marked by Trump's broadcast to the people to disband and return home. This broadcast wound up being blocked, for the most part, by the media. Nevertheless, his address fulfilled the requirement to initiate the Act.

Marines and National Guard troops are being moved as needed for the riots that will start after the national release of the intel. The intel will be dropped for everyone to see and hear in loops that will be several hours long.

The system was just checked by the FCC a few days ago alerting ALL media that they cannot block the flow of intel under federal regs. Trump will be moved continuously like a chess piece from now until the 20th in order to avoid any retaliation against him and his family.

Trump had to exhaust ALL other means legally before this operation could commence. He gave everyone a fair chance to come clean and they refused. His press release of a "smooth transition" did not include the word "concede" as he has no plans to do so. Rather, there will be a smooth transition of power to his new cabinet, staff, and Vice President, General Flynn.

The rally in DC was an awesome event! The raids on the Capitol all started with BLM and Antifa members (many from the Philly area) and included Capitol police or those posing as Capitol police. Every day, new info is pouring forth to support this. They opened up the barricades and doors to the Capitol and let them in.

Also, I got an update on the Capitol breach.

It appears there were some Special Ops members dressed as Trump supporters who went in with the crowd of protesters that were able to secure 20+ laptops w/ hard drives with data regarding sex trafficking intel from both, Pelosi, and Schumer's offices.
